

XG Twist by Agustin - Video - DOWNLOAD

Have you ever wondered if you could do the classic Card Warp without using a card?

From the mind of AGUSTIN, here comes: **XG Twist**.

You show a blister pack of gum and magically make the bottom half turn itself around. And then you can either twist it back again or just rip the bottom half off and give the gum to your spectator as a gift.

This is an organic effect that is so fresh and unique. It's something that has never been seen before.

- Easy to do
- Visual and practical
- Set up in seconds
- No magnet, thread, or sticky stuff
- Hand out the gum with no switch
