Marc's award winning "ambitious" card routine is perfect for the working magician looking to put a new spin onto a proven classic. What starts out as a blank deck routine, ends with a twist when the entire deck "prints" itself and traps your spectators signed card for a kicker reveal. All you'll need to perform miracles is a double blank deck of cards, a sharpie and your favorite printed deck. Marc goes into detail on every aspect of his presentation, while also including a clever innovation with a memory deck.
