

## **TOUCHED by Arnel Renegado - Video - DOWNLOAD**

While everyone is on the rush Arnel Renegado created a new effect to vanish a torn piece right on the hand of your spectator. Imagine this, you ask your spectator to choose any card they want and tear the corner, while on their hand, you simply **TOUCHED** that piece and visually its vanishes, immediately show your hand empty.

- No magnets
- No electronics
- No thread works
- Nothing to ditch
- Show your hand immediately after the touched
- Visually insane
