

Zoom In by Mario Tarasini - Video - DOWNLOAD

Effect:

Zoom a small hole on the card to a big one, like pictures in your smartphone, then flick your fingers and the hole will disappear...

Now you can show both sides of the card... The hole has disappeared completely...

This trick is designed for social media, but it works in real life as well.

The gimmick is super clever. I promise you, you will be amazed, when you see how the gimmick works...

- No magnets
- No stooges
- No gadgets

Just a card with a hole.
