

The Compartment by Mayank Shekhar - Video - DOWNLOAD

Imagine vanishing an object beneath a playing card without any funky sleight of hand moves and END CLEAN.

It is simpler and fairer as it gets. You simply just place an object under a playing card, and it's immediately GONE.

OR

You show just a playing card and place it down, your hand is undeniably empty, and on your command you can make an object appear out of nowhere beneath that playing card.

This is pure magic!

No strings, no magnets, no threads, nothing to palm, nothing to load.

This is "**The Compartment**".
