

The Vault - Social Distancing by Danny Urbanus - Video - DOWNLOAD

Social Distancing is Danny's take on the zigzag effect. Inspired by Ade Rahmat's Distancing and brought to a more practical effect. The participant folds a card and then the performer will show the most visual zig zag effect.

It's so direct after the effect is done, you can immediately give the card back to the participant. Only one card in play, easy to make gimmick and fun to practice and perform. Perfect for your social media and live performances.

"You shocked me. I can't believe I'm seeing this. Danny, you make this trick look even more perfect. This is real magic"

- **Ade Rahmat**
