Here is a stunning card penetration that GETS INCREDIBLE REACTIONS!

It's a surprisingly solid-though-solid that's easy to perform and a SHOCKING VISUAL.

A great fit for any virtual audience. You openly push the spectator's freely chosen playing card into the centre of a packaging air bubble.

Effect: Tell your audience YOU HAVE A UNIQUE WAY TO KEEP SPECIAL memories. You introduce a packaging air cushion and their chosen card. You then openly and freely push their card into the centre which is shown from all angles
