

## **DreamCAAN by Viper Magic - Video - DOWNLOAD**

In the **DreamCAAN** routine, Only one normal pack of cards is used. NO GIMMICKS whatsoever. The spectator gets to choose a card mentally. Once the card has been selected. the spectator chooses a number between 1 to 52.

The magician very fairly takes out the cards from the box and starts dealing them on the table.

And surprisingly on the selected number is the spectator's card.

What makes this routine special is, that this trick is self working and can even be performed with jumbo cards.

You literally require no sleights.
