

The Viper Bundle (4 effects in 1) by Viper Magic - Video - DOWNLOAD

4 of our favorite effects from our Viper Magic creators!

These effects are easy enough for a beginner and get incredible reactions.

The 4 effects taught in the **Viper Bundle** are:

1. The Impossible Sandwich

An effect that starts out like a sandwich routine, but ends with a very visual transposition effect.

2. Morphed

A sandwich effect where the 2 cards morph together and become the spectator's selected card.

3. Trapped

Another Sandwich effect, where the selected card from the middle appears in between the 2 cards.

4. Fall

Fall is a penetration effect, where the selected card is left face up in the middle of the deck, and with one snap, the card falls down penetrating the entire deck.
