A SUPERB PACKET CARD TRICK WITH AN UNEXPECTED 'SUCKER' FINISH!

Another killer close-up packet card trick from the creative mind of Wolfgang Riebe!

3 cards are shown and a Joker is openly placed in various places amongst the cards, ie on top, in the middle and at the bottom. Magically the joker ALWAYS returns to its original position.

The audience soon suspect that 3 identical cards are being used, and at one point even see 3 Jokers!

Eventually the magician admits that he has 3 identical cards and suddenly all 3 cards change to mirrors! 3 Identical mirrors and no Jokers anywhere!

Isn't that how most tricks work? With mirrors!

This is a snappy, fun and magical routine with a TREMENDOUS unexpected, surprise ending!
