

Miracle Box by Alexander Shulyatsky - Video - DOWNLOAD

When I first saw the Killer Card Case by JP Vallarino & Yuri Kaine I fell in love with the idea of a box with a window.

I knew for sure that the potential was not 100% explored, and therefore I took it upon myself to play with the plot.

I present to your attention Miracle Box - a tool that will allow you to perform such effects as:

- Disappearance
- Appearance
- Teleportation
- Transposition
- Change
- Multi-change
- Switch

Anything that fits in the box can be produced, in particular:

- Bills/Coins
- M&M's/Skittles
- OMNI deck
- Condoms
- Markers/Pens
- Beetle/Skittle Spidey
- Gums/Color Clips... etc.

Visual changes happen right before the eyes of the viewer, and it is also an amazing tool for tricks on social networks!

- Easy to do
- Easy to show
- Easy to surprise

This is **Miracle Box** I strongly recommend that you familiarize yourself with Wonderbox by SansMinds and Gum to Anything by SansMinds together with

Miracle Box.
