

Table Magic 2 by Mario Tarasini - Video - DOWNLOAD

This is a series of tricks I have created in 2 years.

In the file you will find 3 tricks that are all compatible with each other.

No Contact

The "No Contact" trick is very relevant for this period. The magician makes a hole in the spectator's card, puts it on the table and hole magically jumps to the other side of the card. After an effect, the magician can give the card to the spectator as a souvenir.

Timelapse

Effect:

The magician puts a black sticker on the card box.

The sticker is covered with a card and it disappears!

That's not all...

The sticker after a while magically appears on the card!

Gimmick is easy to make, but don't be fooled

Although the trick is simple, but very visual.

Transpo Box

Transpo box is a fun device that swaps signed cards in different places.

Effect:

The Spectator chooses two cards and signs them. The magician puts first card in the box and the second goes under it. With a wave of the hand the cards visually swap places!

Gimmick is very easy to make and the effect is stunning. You can perform the trick in person or on social media.
