

## **The Vault - Rope with Hole 2.0 by Dingding - DOWNLOAD**

An impossible penetration effect!

Show a playing card with three holes punched through it. You tie a string through the hole on the end. It instantly jumps to the hole on the opposite end. Just when the audience thinks they have it figured out and that you just turned the card over. The string jumps impossibly to the centre hole, right in front of their eyes!

Fun gimmick to make.

Easy to perform.
