

STICKY PHONES by Tybbe Master - Video - DOWNLOAD

Imagine we take a small sticky note, stick it on the back of the cellphone, and draw or write whatever we want.

After that, flick our finger and suddenly the image or writing changes instantly.

Then we will peel off the sticky note and give it to the spectator for inspection.

The spectator will definitely be stunned to see this!

Sticky Phones has:

- No pulls
- No magnets
- No chemicals

It is very visual and practical that can be performed anytime & anywhere.
