

Perfect Wedding 2 by Francesco Carrara - Video - DOWNLOAD

Letters from famous paintings are shown, but they are partitioned in half. The magician mixes the mixed parts well and divides them into 2 equal piles. The spectator (using a set of coins) makes all the decisions about the pairs he wants to select. In the end, all pairs coincide, forming the image on the cards.

This is stunning, visual magic and very easy to do.

This includes card layouts. You can learn this number in just a few minutes. The difficulty level is easy.
