

Memoire by Stephane Lacroix - Video - DOWNLOAD

Mémoire the voice-activated crib for iPhone by the notorious Stéphane Lacroix.

In the span of minutes, you will have converted your existing iPhone into a powerful voice-activated digital crib that you can duplicate, modify and tailor to your specific needs in regard to impromptu demonstrations of superhuman memory!

This purchase comes with a 60-minute video tutorial and PDF document containing detailed step-by-step instructions, as well as the assets to fast forward the procedure. The project also comes with bonus material including instructions for the Si Stebbins Stack as well as assets and tutorial for the Lacroix Arcana Stack as to perform incredible reading routines using tarot cards!

Perform With:

- Playing Cards
- Tarot Cards
- Billets
- Photos
- Works with Apple Watch
- Audio peeks available with bone-conductive devices
- Close up / Parlor / Stage / Virtual / Live

Testimonials

"Just started going through the tutorial, looks great! I will be using this!"

- **Kevin Peel (Mind reader)**

"I'm not really an app guy, but when I saw this, I was hooked! Look out for this guy!"

- **Michel Huot (Magician)**

"I definitely have a need for this!"

- **Looch (Mind reader)**

"This is the best use of any phone - forget magic apps that need upgrading - this trick will blow minds and it's easy to set up on your phone"

- Paul Romhany (Vanish Magic International Magazine / Vortex Magic)

"Expect some epic releases from this guy!"

- Adam Wilber (Vulpine Magic)
