

## The Bracelets by Ebbytones - Video - DOWNLOAD

This is a magic effect that is unique and really different from the others. We use a beautiful, beaded bracelet which we will pass through and link in the hole in the corner of the card we made.

**The Bracelets** is very cool and can be direct. Spectator examines it to makes sure there are no tears or cuts around the hole and card.

Then what's even cooler is that we can give the card and beaded bracelet as a souvenir for the spectator, and it will give a very spectacular impression to our spectator.

- Fully examinable
- Very easy to do
- Very practical
