Sebats By Ragil Septia - Video - DOWNLOAD

For those who partake, there is said to be something almost magical about a cigarette after a long day. Ragil Septia created the ultimate impromptu trick to extend that magical feeling to everyone.

At the bar, you take out a cigarette, but instead of lighting it up, you place it on top of the pack. With a wave of your hand, the cigarette begins to defy the laws of gravity and stand itself up on one end.

After performing, pass out the cigarette for your spectators to examine.

In this unbelievable download, Septia runs you through everything you need to know to make and perform this trick.
