

In A Pinch by Peter Turner and Pigcake - Video - DOWNLOAD

iOS 18 has arrived, and it's got mentalists buzzing-both in excitement and concern. One of the biggest changes? The iPhone calculator, a trusted staple for hidden forces, impossible predictions, and mathematical miracles, has been shaken up. The toxic force is no more, and with it, some of our favorite tricks have been thrown off balance.

But don't panic just yet.

Pig Cake and Peter Turner have teamed up to crack the code and turn this challenge into a new opportunity. Together, they've developed over a dozen innovative ways to harness the power of the new iOS 18 update. Not only will you learn how to work around the changes, but you'll also discover incredible methods to reveal PIN codes, thought-of numbers, addresses, phone numbers, and more-using any spectator's phone!

With this project, you'll be ready to adapt and amaze with new, mind-blowing effects - all done **IN A PINCH**.
