

Tribute to Astonishment (Explanations in English and Spanish) by David Miro - Video - DOWNLOAD

David Alvarez invites you on a magical journey inspired by Paul Harris's creations.

In this project, you'll find:

- **12 reinvented classic routines:** From impossible twists to traveling cards, each routine has been updated with personal touches and innovative techniques.
- **Creative collaboration with Dani Marko:** Together, they've created unique and surprising versions of the original effects.
- **Content for all levels:** Both beginners and experienced magicians will find inspiration and new ideas.
- **Detailed explanation:** Each routine is presented clearly, including tips, reviews, and creative ideas.
- **Available in English and Spanish:** So, you can enjoy this tribute in your language.

What's inside?

Part 1: THE TWISTS

- **Bizarre Twist Cut:** Dani Marko presents his exquisite version, where the routine is performed entirely with the four aces, and the magic culminates in the spectator's hands. Interpreted by David Alvarez, this becomes an Everyday Carry (EDC) magic.
- **Bizarre Twist Transposition:** In this version, you'll be able to end the routine with a striking transposition effect between the card that's always turned over and another card previously placed on the table.
- **Bizarre Twist Optical Wallet:** After acquiring an Optical Wallet from a street magician, David Alvarez created this version, which he considers ideal for carrying as a packet trick in your pockets. If you wish, you can make the climax end again in your audience's hands.
- **Bonus Track:** We prefer to keep the mystery... Come and discover it! We'll only give you a hint: a great variation of a Paul Harris opening routine.

Part 2: THE TRAVELERS

- **Vacuun Cleaner Cards Direct Handling:** Enjoy the vacuum cleaner with a direct and simple interpretation, but with a diabolically intelligent move that will make the journey much smoother!
- **Backlash 3.0:** The traveling card routine in the pocket has been revived, but with a powerful surprise in the climax that will leave the spectator astonished.
- **Drop Shot Revolutions:** Dani Marko and David Alvarez joined forces to create revolutions in this version of the original Paul Harris routine, inspired by Matt Schulien's "Corner in the Glass". Join the cards on their impossible journeys!
- **LVL\$ Retouched:** "Las Vegas Leaper" is one of the legendary "Card Across" routines par excellence. After being part of the repertoire of dozens of magicians, we've decided to add a touch to the version included in the **True Astonishment** DVD series.

Part 3: THE MEMORIES

- **Twilight Angels Empathetic Version:** David Alvarez's favorite card routine. After being interpreted in various ways, this version combines with an animation video that impressively showcases the angelic flight.
- **Membrana Bluetooth:** Dani Marko surprises again with his creativity and presents David Alvarez with this innovative routine that links your cell phone to the deck of cards using Bluetooth technology. And the best part? The deck is completely normal!
- **Over Exposure 2.0:** Turning a deck of cards into a camera is a strange feat that's not seen every day. This routine has been enhanced with additional layers of realism, allowing you to produce real photographs with your deck converted into a Polaroid camera.
- **Overkill Simplified:** To close this project with a golden touch, we present to you the "Overkill" prediction routine by Paul Harris, based on routines by Allan Ackerman, Wes Emberg, and Ed Marlo. Now, completely simplified in its mathematical procedure, it becomes a genuine miracle ready to be used whenever you desire.

Why this project?

David Alvarez, inspired by Paul Harris's innovative magic, seeks to share his

passion with the Spanish-speaking and English-speaking magic community, and with magicians worldwide. This project offers a unique opportunity to learn and enjoy the most updated and exciting magic, inspired by one of the greatest magicians of all time.
