

Folded Penetrate by Tybbe Master - Video - DOWNLOAD

With the borrowed banknotes from the spectator, we fold them into several folds. Then we take a card with two small holes on the card, put the banknotes in the middle of the card folds.

Next, take a pencil then pierce the card through and also pierce the money in the middle of the folds. But when we pull out the pencil, the money in the middle of the card remains intact without any stab marks or tears! The spectator will be stunned to see that!
