

SUPER LEVITATION WITH ROTATION by Tora Magic - Zuschauer schweben lassen - Zaubertrick

The assistant is placed in a trance and is told to climb on a board that is resting on two screens and lie down flat. The magician stands behind the board and the screens are then removed, causing the assistant to float in mid air. The magician concentrates on the assistant and she slowly starts to float around the magician's body. She is brought back into position and the screens are replaced. She is then brought out of the trance to conclude the effect.
