
Fly Trap by Bennie Chickering

From Bennie Chickering comes another mind bending visual that you and your audience are bound to love: **Flytrap!**

Flytrap is a specially prepared card that can be used in a variety of ways. Primarily, **Flytrap** cards are used to hide another card, (or a couple of cards), from view until they are needed.

From visual productions to transpositions and multiplication effects, **Flytrap** is the "delightfully simple" way to make it all happen using only one gaffed card.

Easy to use and incredibly satisfying to perform, **Flytrap** is the perfect gaff card to stash in your everyday deck and use within a moment's notice. Full routines using only the flytrap gaff and a normal deck of cards are taught, but **Flytrap** can also be easily integrated into some of your favorite card effects to add that extra "wow" factor to your routines. As an opener, a kicker, a utility, or a standalone effect - **Flytrap** is extremely versatile, visual, easy to use, and so much fun to perform with.

Each unit comes with one flytrap gimmick in red Bicycle rider back and a Joker face along with a trading card so it is ready to go right out of the box.

Note: *The Flytrap gimmicks are expertly crafted by Bennie himself and can last you for quite a long time, but please ensure that you watch the instructions prior to first use as the gaff may need to acclimate to your local environment.*
