## **Pocket The Expert at the Card Table by Erdnase (Erdnase Bible-Chestnut Brown) - Buch**

Ten years ago we released our first edition of the pocket size Expert at the Card Table. It has been sold out for years, so we've created an updated and improved version!

### Features:

- It's bound in a luxurious, chestnut brown, supple faux-leather that looks and feels real! This is a great improvement over our first version.
- More flexible - this version is more pliable and won't easily get creased while in your pocket
- Elegant ribbon for keeping your place
- Gold foil stamped cover and gilt edges
- The entire contents of S. W. Erdnase's classic The Expert at the Card Table
- Pocket size
- Line numbers for easy reference to any part of the book
