
Forbidden Forest - Pokerdeck

A deck of playing cards based on the curious creatures of South Asian mythology

Forbidden Forest captures South Asia's most imaginative mythological creatures in an eccentric set of luxury playing cards. From a horse-headed demon to rivaling monkeys, Toronto-based design studio Humble Raja has reinterpreted twelve fantastic animals to breathe new life into ancient tales.

Beautifully printed by the United States Playing Card Company using a gold foil overlay on the back of each card with a design inspired by antique marbled endpapers. Packaged inside a luxurious tuck box embossed with a faux reptile-skin pattern.
