
Bioluminescent - Pokerdeck

The world is teeming with organisms capable of producing their own light. This phenomenon is known as bioluminescence. The Bioluminescent playing cards celebrate the various beings of the land, sea, and air that are capable of this amazing and beautiful feat.

Designed by Douglas Fuchs, the Bioluminescent deck has 100% custom artwork featuring sea creatures, insects, fungi, and more. All of the art of the backs, faces, and the tuck box are accented by special UV ink that glows under a backlight.

The box and back have a deep purple and blue color scheme. The court cards and jokers each feature a different creature, while two included info cards label the various species. All of your favorites are here - lightning bugs, angler fish, and many you may not yet know!

Bioluminescent Playing Cards feature Penguin Magic's exclusive UltraLux™ Finish and AquaFlow™ Coating. The casino-grade European card stock and perfect linen texture deliver a deck that handles like an absolute dream. The cards are modern cut with smooth edges that provide just the right amount of grip.

Printed with vegetable-based inks and water-based coating, the cards are planet-friendly as well! Bioluminescent decks are soft enough to get to work straight out of the box, but durable enough to meet the needs of a full-time magician, cardist, or card sharp.

What's more - the **Bioluminescent** deck is a finely-cut stripper deck! The cards are factory-cut using a special punch that gives the cards a slightly tapered shape. Imperceptible to the naked eye, this becomes a powerful tool in the magician's arsenal when one or more cards are reversed 180 degrees in the deck!

- Limited printing of only 2,500 decks
- 100% custom artwork by Douglas Fuchs
- UV ink elements glow under backlight
- UltraLux™ Finish with AquaFlow™ Coating
- Modern cut with special tapered "Stripper Deck" shape

-
- Custom tuck box with inside & outside printing
