
Original Blackcat Limited Edition - Pokerdeck

Everything inside the **Original BlackCat** deck is personalized. The faces include custom characters, pips, court cards, diamond Ace and custom Aces, but we were respectful of the classic appearance of a playing card that we all know to recognize and appreciate them. For our deck we have created a back designed to be perfect for card tricks, the simplicity of the lines and the sinuous curves makes our Hypnotic background a must have for all cardists.

The tuck box:

- Matte finish tuck stock
- Customization in each side of the box

ORIGINAL BLACKCAT will have a limited production, only 1000 decks will be printed for this Kickstarter campaign. Each deck will have a numbered seal.

*our kickstarter campaign will have a sold out structure, it means that once all the numbered decks will be sold out we will evaluate whether to make a second edition of the deck.
