
BosKarta LUX Gilded by Wounded Corner - Pokerdeck

The **Boskarta Playing Cards LUX Edition** is the deck you take out when you want to be clean and classy. Its white tuck box is embossed with pearl foil on the front and all the same silver foil details as its HH counterpart. It just looks a little sexier.

The middle of the tuck will have a die-cut hole with thin plastic to look like the lens. It will also have a silver seal that mimics the open mechanism on the actual Brownie model A camera. We want this to look and feel like the real thing.
