
ZDV2: retro - Pokerdeck

Z Deck gets reimagined. To create the second edition, ZDV2: retro, cardistry brand December Boys hosted a contest and received 173 submissions from artists across the world. Over half a year went into polishing the winning design, ensuring the 80s inspired look complements flourishes in motion.

Every deck comes with 4 ((green cards)), allowing you to chroma key them to anything and explore new visual dimensions to cardistry. While editing out the ((green cards)) is quite simple even with free mobile apps, December Boys' Creator's Panel will do this for you in seconds. Find a link for a hidden tutorial on the bottom of ZDV2 box and learn everything in under 8 minutes.

Decks housed in a nostalgic holo-foiled sideways-opening tuck cases, devised together with designer Emir Alicic. Printed by the United States Playing Card Company on crushed stock, developed for cardistry, using environmentally responsible FSC-certified paper.
