
Bicycle Muralis - Pokerdeck

Muralis from Bicycle Playing Cards is a premium playing card deck inspired by the beautiful tile work found in Mediterranean countries. The colors used throughout the deck include a terracotta, that represents the color of the roofs of many of the homes in the Greek Isles, combined with sea-inspired blues and turquoises that represents the crystal blue waters of the Mediterranean sea. The colors on the tuck case and the card back are also used throughout the card faces for a cohesive and high-end design. The Mediterranean tile trend is popular in home décor, making Muralis the perfect deck for both casual card play and room décor when not in use.

The court cards are re-colored traditional court cards, echoing the colors found on the tuck and card backs for a seamless design. The faces are fully playable with the heart and diamond pips in traditional red, and the spade and club pips in their traditional black color, so they are easily recognizable during play.

All Bicycle playing cards are made in the USA with Bicycle's classic Air Cushion finish. This gives playing cards a linen-like feel and allows cards to glide smoothly off one another during shuffling, dealing, and flourishing.
