
Gilded 5th Anniversary of PlayingCardDecks.com

A special limited deck to commemorate the 5th anniversary of PlayingCardDecks.com, often referred to as PCD.

Franken decks have been one of our most popular items at PCD, which are created by assembling a complete deck from cards from all different decks, a very time consuming process. So we decided to create a printed franken deck from our favorite decks we have produced and collaborated on from our first 5 years. This deck has 56 different backs and faces!

This deck is a must have for collectors, especially single card collectors. Many of the cards in this deck are from sold out favorites. These decks can also be used for casual card games such as solitaire and war, as well as a rainbow deck for magicians and a colorful eclectic deck for cardistry.

Special thanks to the USPCC custom division for their assistance in making this deck.

Please note gilding may wear off with regular use.
