
Rattler Gorge Gilded (Noir) - Pokerdeck

The **Noir** version features black and white tones that pay homage to the silver screen movies that turned the stories of the old west into legend. With a black tuck case highlighted by silver foil, this version represents a striking contrast. And of course, it includes the distinctive cutouts of its sister deck, allowing you to peek in on design elements of the cards within. The entire tuck is meant to be an experience to enjoy, capturing the feel of the buildings of the old west and giving you a truly unique way to enjoy your deck!
