
Rattler Gorge Gilded (Desert Dust) - Pokerdeck

Rattler Gorge - Desert Dust

The **Desert Dust** version captures the natural colors of the west. A deep brown tuck includes illustrations on the center of every good western town - the saloon. Luxurious gold foil ensures that the artwork will stand out on the shelf. But the most unique feature of all is the strategic laser cutouts on both the front and back of the tuck. On the front, classic swinging doors invite you into the saloon. On the back, a circular cutout reveals the central design feature of the back design of the cards, the iconic revolver chamber.
