
Lounge Edition in Hangar (Orange) by Jetsetter - Pokerdeck

Following their predecessors, Jetsetter Playing Cards has produced the **Lounge Edition** as another vintage and classy deck with modern appeal. Continuing to be inspired by casino and airline decks of the past, the clean and simple design fits with the rest of the Jetsetter Playing Cards fleet.

With the Standard Back version of the **Lounge Edition in Hangar Orange**, the playing cards showcase re-colored standard faces and have an untraditional offset classic and casino inspired back design that pays homage to a vintage regional airline of years past with the orange colorway. The cards are traditionally cut to provide the ability to weave or faro shuffle facedown. The tuck box exhibits premium features with a durable synthetic stock material, clear UV spot varnish, and silver foil accents.
