
Lonely Wolf (Purple) by BOCOPO - Pokerdeck

The image of a beast and wolf is used to convey a brave temperament for everyone.

The new **Purple Lone Wolf**, with a gradual pink-purple color scheme, creates a beautiful and romantic dreamy feeling. The entire design is very suitable for cardistry performances, especially when the fan is opened, it creates amazing visual effects. Without the barriers of white borders, the whole picture is more beautiful and harmonious.

Printed with MPC (MakePlayingCards) with their new Linen Air Light stock & Beta finish.
