
Ace Invaders - Pokerdeck

Aliens have landed and infiltrated a deck of playing cards! The retro-styled borderless back design has a muted, vintage color palette that's swarming with flying saucers. The faces are chock full of alien creatures ready to beam into your next game. Despite the 100% custom design, the deck has been created with playability in mind, making it perfect for all applications.

Printed in the USA on traditionally-cut Classic stock with embossed Magic finish by the United States Playing Card Company, **Ace Invaders** are made using vegetable-based inks and starch-based laminates on FSC-certified paper sourced from sustainable forests. This means the cards not only shuffle, fan, and spread perfectly for all of your favorite games & tricks, they're made with the well-being of the entire planet in mind!

Each deck includes nearly-identical Jokers with a built in reveal, as well as 2 special gaff cards. All of the cards are placed into suspended animation inside a custom tuck box with a custom sticker seal for their interstellar travels.
