
Cabinetarium by Art of Play - Pokerdeck

Art of Play is proud to present a shuffled gallery of surrealist fantasy, unlike any other deck of playing cards the world has ever seen. **Cabinetarium** is a collection of 55 original works hand-drawn by award-winning illustrator Armando Veve.

Veve's fantastic creatures, absurd objects, and exotic fantasies combine to create a singular vision—a mythic assemblage of ideas that will stir the imagination and quicken the pulse. Browse through the illustrations and marvel at a mastery of craft that evokes echoes of Bosch, Escher, and Dali.

The cards of the **Cabinetarium** are housed in a marvelous conceptual cabinet of magnificent detail, intricately embossed and adorned with gold foil. Each deck is carefully packaged by hand.
