## Abandoned Luxury by Dynamo - Pokerdeck

**Abandoned Luxury Playing Cards** are Dynamo's personal playing cards. Now available are the new *Royal Ivy Edition* Playing Cards in vibrant sapphire blue and gold metallic ink.

Abandoned Luxury Playing Cards are a tribute to the world famous magician Dynamo's live tour in London.

Deep in the hotel in an abandoned room covered with ivy, Dynamo amazed audiences and they shared their love of joy and magic.

The flat black matte tuck is adorned with embossed gold and sapphire blue foil on every side. As you enter through the iron gates flanked with gargoyles, you take in the stunning ornamentation and detail of this splendid deck.

The tuck flap is a gold foil sun bringing light to even the darkest of corners of the black matte inside.

Printed on Cartamundi True Linen B9 Slimline the deck is as beautiful to look at as it is to hold. The backs highlight the wrought iron gates intertwined with ivy and gold metallic ink.

The borders are thin to create beautiful fans. The court cards let the colors shine through, while the traditional pips are perfect for magic effects.
