
Offset Orange by Cardistry Touch - Pokerdeck

The "**Offset Orange**" concept deck is our bold take on traditional playing cards. In cardistry, our mistakes are often a starting point to come up with new moves. We took that same idea to create this deck: inspired by the misprint of certain playing cards, we wanted to use the "offset" as part of the actual design. 4 different backs, 4 different directions. Either follow the arrow, or simply let them give a new aesthetic to your cuts. The colors, inspired by urban life, make this deck a perfect accessory to match your street wear looks. **DETAILS**

- Printed by USPCC
- Premium crushed stock
- 52 playing cards + 1 ad card
