
Palette - Pokerdeck

NEVER have you had a deck like this.

Discovered at Cardistry Con 2019.

Like a blank canvas, **Palette Playing Cards** is one of the MOST unique decks you will ever own for cardistry, flourishing or magic.

Palette Playing Cards is an incredibly rare combination of pastel colored hues in block shapes.

The colors compliment, and never compete with your attire.

Like Legos, the squares and rectangles on the backs, including the pips on the front, allow you to build stunning block cuts, fans and spreads, as well as magical revelations.

Don't be bound by traditional faces and pips. Unleash your signature moves.
