
Broken Borders 2019 by The New Deck Order - Pokerdeck

Our popular Broken Borders Playing Cards has returned with a brand-new colorway!

Born out of its dangerous predecessor, the 2019 version of **Broken Borders** features the iconic stripes in handsome, elegant deep green against a sexy, fresh red, with vintage-looking borders and faces reminiscent of a classic Victorian color palette. It doesn't matter which side you're fanning with - the stripes that carry over from the backs onto the faces of the cards will give you that dazzling bullseye aesthetic.

Broken Borders 2019 Playing Cards brings an exciting new combination of stock and finish to the table. We've brought back everyone's favorite finish from the Jaspas Deck Cardistry-con Edition, combined with the snappiest stock you've ever felt in your hands. These decks live forever - put them through the wringer and they'll still come out the other end ready for another round.

Keep a close eye and you might notice a special little tidbit we've included in the cards this time round...
