
Mini Tower Prediction by Quique Marduk

The magician shows a sealed envelope with his prediction inside. The spectator selects a card; let's say, the Queen of Hearts. The magician opens the envelope and there is a jumbo card!... But wait, it's not the Queen.

Suddenly, the jumbo card changes into a 16" inch card tower!... But wait, the selected card is still not there. The magician turns the tower around, and the audience can see a Jumbo Queen of Hearts printed on it.

A quality card tower. Use the **Mini Tower Prediction** as an opening and overture of your act or make it the grand finale of your parlor or stage show. It works with any size of audience. As they say, the **Mini Tower Prediction** packs flat and plays very big, thus a perfect addition to your act!
