## Redux Go - Pokerdeck

The **Redux Go Deck** is a new, exciting and ultra portable deck that is part of Flagrant Agenda's Kickstarter Project, Agenda Playing Card Redux. The main idea for **Redux Go Deck** is about making a move and being mobile, settling in nicely with the core concepts of Agenda Redux on change and transformation with change, and transformation as signifying moving from the present to an ideal future. The **Redux Go Deck** is partly inspired by other portable deck projects, as well as Chinese playing cards, which feature such strip-like dimensions prominently in various forms.

**Redux Go Deck** is produced and distributed by Flagrant Agenda and features:

- Custom pressed tuck case printed with premium blue uncoated paper and white and gold hot foil stamping
- Printed on German Black Core paper
- Cardistry finish
- Custom Court cards (JQK), Jokers and Aces
