
Limited Edition Six Strings - Pokerdeck

LIMITED EDITION: Only a certain number will be printed! Will NOT be reprinted.

A collaboration between Kardify and Murphy's Magic, **Six Strings Playing Cards** is a fully custom deck of playing cards inspired by the most majestic and fascinating musical instrument -- the guitar. This limited edition deck is designed by Ade Suryana and features fully custom design, reimagined courts, and a beautifully crafted letter-pressed tuck case. **Six Strings** is as beautiful as it is functional - versatile for themed magic, game nights or to have in the collection.

Inside, the deck looks amazingly beautiful and unique! It is visually appealing and designed around familiarity. The pips on **Six Strings** have been given an update with themed custom suits and classic font for the lettering and numbers. The Court cards are gorgeous. Each card has a different face with its own uniquely designed wardrobe with classic ornament details and guitar instrument. This provides a good balance of having a custom design while keeping the integrity of a standard deck of playing cards.

The Ace of Spades showcases a beautiful intricate design that is classic, yet stylish. The featured virtuoso guitarist adds to the identity of the deck. The No.052 came from a string gauge size which coincidentally matches the number of cards in a standard deck. **Six Strings** features an intricate, mirrored card back design inspired by the stringed instrument. The attention to detail and meticulous craftsmanship makes this deck one of a kind.

The stunning tuck box is adorned with copper foil titling which is especially striking. Letter-pressed by Clove St Press on textured paper to give it a classic look and feel. The deck combines distinctive design with the peerless quality of the United States Playing Card Co.
