
Skymember Presents I³/III by Austin Ho and The One - Pokerdeck

LIMITED EDITION: Only 1000 printed! Will NOT be reprinted.

I³ is a deck not of this world but **plucked from the dream** of its artist, **Austin Ho**. Its minimalist design, coupled with the ethereal hue that is macaron blue, is a take on the qualities of a dream: simple but intriguing. Extending on its otherworldly quality, the courts of cards are all made faceless; and the Joker-the conjurer of the dream, Austin himself, is whirling the cards of I³ inside the card itself.

I³ is **made for cardistry**. Featuring a borderless back with stripes angled precisely to fan into a captivating spiral like a dream that never ends. The entire deck, **printed only in Pantone ink**, is bound to lure the gazes of bystanders with flourishes.

When encased, the tuck case showcases I³'s allure with vibrant, pearlesque stripes belted around it. Along with premium metallic inking, I³ is also printed in classic stock by the USPCC for a quality, textured finish.

I³ Playing Cards is the result of dare to dream. The world needs your dreams.
