
Dr. Schwartz's Fantasy Rising Card

Fantasize about the perfect Rising Card effect and it might go something like this.

From ANY PACK, two or three cards are freely selected and initialed. The cards are then put back into the deck and the deck is placed back into the card box. The box is then put on a wooden stand.

You walk away from the deck and the first chosen card rises, and is removed. Now upon your command the second card rises and is removed. All of this happens with you standing at a distance from the stand.

Everything is examinable before and after. This precision made mechanism is without doubt one of the best card rising devices available. Comes complete, ready to work for you. Complete, Cards stand, precision gimmick.

Your audience will be amazed, and you'll love performing this great effect!
