## Mobile Mentalism Volume II by Mark Strivings

The dynamite follow-up to one of the most important new developments in modern mentalism. Continuing on the worldwide success of *Mobile Mentalism*, here's **Volume II!**

Continuing one of the most important movements in mentalism in the last 30 years, this is **Mobile Mentalism Volume II**. Loaded to the gills with real-world material specifically designed for strolling and walk-around venues. This tome picks up where Volume I left off, giving you boatloads of new effects and handlings, essays on important strolling and walk-around issues, as well as updates to material from Volume I. It's a treasure-trove of practical, workable mentalism for the close-up performer.

As with Volume I, I have prevailed upon several of my friends around the world to contribute some of their own strolling material and it is amazing stuff! Included are effects from David Eldridge, Dan Kirsch, Jimmy Gonzalez, Bob Love, Steven Brehe, Robert Waller, Elliott Black, Ron Guttman, David Whitehead and Ben Rayot, along with an even dozen items from Mark Strivings. In all, there are nearly 30 effects, updates, essays and solid mentalism material.

As with Volume I, there are effects here for strolling, table-hopping, walk-around, cocktail parties, hospitality suites and more! Armed with this material, you will be ready for anything!

All of this comes to you in over 80 pages, comb-bound in card and clear plastic covers.

If you do close-up of ANY kind, you need this book!
