Salem - Pokerdeck

Join the hysteria and the supernatural.

Salem Playing Cards remind us of the power of the masses, and the dark history of Salem Witch Trials. With rumors of witchcraft some people were known to have strange fits, or what some people referred to as "the disease of astonishment".

Let the **Salem Playing Cards** overtake you.

Concentric circles create a stained-glass effect on the tuck and the backs. Geometric patterns engulf a mysteriously shrouded figure.

Strange symbols and triangles radiate in its aura.

The stark white background is sullied by the black ashes from so-called witches burned at the stake. Triangles point outward in each corner as a catalyst to radiate the evil energy outward.

The custom tuck seal is emblazed with a red triangle representing the physical, mental and spiritual aspects of humanity placed over a circle of oneness.

One last symbol of hope before it is destroyed as the cards are revealed.

Includes:

- Custom seal
- Specially designed Jokers
- Custom Ace of Spades
- Printed by Expert Playing Card
