
Kung Fu Foot by Héctor Mancha

How do you reveal a card onstage? It has to be something dynamic, physical, and memorable. Cue **Kung Fu Foot!** Created and honed to perfection by FISM Grand Champion Héctor Mancha, this hilarious card revelation allows you to stab a card from midair... with your foot!

Kung Fu Foot works with any pair of socks and pants and minimal one-time preparation. You receive a custom-manufactured gimmick that allows you to "catch" a card between your toes, through your socks. The effect is easy to do and perfect for parlor, platform, and stage performances. You can even do it up close, so long as you have the space to toss a pack of cards into the air.

You also receive a 42-minute online video instruction from Hector Mancha, taking you through each phase of his brilliant "Card to Foot" effect.
