
Vertigo Prediction by Bazar de Magia

Some years ago Rodrigo Romano delighted us with his effect Gilligan Prediction. Now he surprises us once again, with his new creation: VERTIGO.

Let's imagine just some of the effects that are possible with VERTIGO:

A card, freely chosen by a spectator, coincides with the prediction made by the performer some seconds before. No forcing of cards. As simple as that: the spectator names the card and it is the same mentioned in the magician's prediction.

Imagine a roulette: the spectator chooses any number, and it coincides with the number the magician predicted. The spectator chooses a character, a country and a letter (or something of any other category) and there is an astounding full coincidence with the magician predictions.

You will find many more ideas that will astonish your audience.

VERTIGO is a genius tool, not only useful in mentalism, but also for parlor, stage or close up magic.

Some of its advantages:

- NO FORCING OF ANY KIND NEEDED
- THE MAGICIAN'S HANDS ARE ALWAYS SEEN BY THE AUDIENCE
- MAY BE RESET IN SECONDS
- IT DOESN'T USE NAIL WRITING, SWAMI GIMMICK, OR ANY OTHER WRITING SYSTEM
- NO SPECIAL PAPER USED
- NO CLOTHING RESTRICTIONS, YOU CAN PERFORM IT NAKED
- IT DOESN'T REQUIRE ELECTRONICS EITHER
- THE GIMMICK IT USES WAS SPECIALLY DESIGNED FOR THIS EFFECT
- PUT THE PREDICTION INTO A GLASS OF WINE OR A SMALL CUP OF COFFEE OR PUT THE PREDICTION ON A TABLE

What does the VERTIGO set include?

You will get a gimmick specially created for VERTIGO, more than 40 minutes of online instructions (in English and Spanish), routines and all the required materials to perform any of the described effects.
